PROJECTS

TIMED CODE QUIZ

- A timed quiz app on Javascript fundamentals.
- Built using HTML, CSS, and plain JavaScript.
- Uses local storage to save high scores.

Deployed app: https://nvsco-10.github.io/timed-code-quiz/

WEATHER DASHBOARD

- A simple weather dashboard that allows a user to view the current and future weather conditions (5-day forecast) for any city.
- Uses the the OpenWeather Geocoding API & OpenWeather One Call API to fetch weather data.
- Built using HTML, CSS, and plain JavaScript.

Deployed app: https://nvsco-10.github.io/weather-dashboard/

GARY'S BAD JOKES

- Uses the JokeAPI REST API to fetch random jokes with the click of a button.
- User is given the option to save favorite jokes using local storage. Saved jokes are displayed in a separate page.
- Built using jQuery, Bootstrap, JavaScript (ES6), HTML, and CSS.

Deployed app: https://usernameisstephen.github.io/Gary-Bad-Jokes-Creator/
